Meeting called to order 7:00 pm at Town Hall by Supervisor Gott.

The question was asked. What issues does each of the three Fire Districts have, that would keep them from moving forward with a State Grant, to study the Feasibility of merging the three Fire Districts?

Lakeville has an issue with finances.

Hemlock has a few questions that they would like answered.

Livonia is ready to move forward.

Councilmember Seelos stated that any money that needed to be spent, would be able to be budgeted in the 2015 budget. Lakeville stated that is their wish.

Supervisor Gott asked to have the questions from Hemlock forwarded to Councilmember Seelos so they can be answered this week. Tony Parsells said he would make sure that happened.

We all decided that another meeting would be appropriate in one month with better attendance hopefully.

Kevin Niedermaier made several statements referring to training and efficiencies with personnel that could be obtained by consolidation.

The meeting was adjourned at 7:48 on motion by Councilmember Grouse and second by Councilmember English.

Respectfully submitted,

Eric Gott
